- 1. This action is in response to the application and amendment that was received on November 26, 2003. Claims 1-11 are pending.
- 2. The drawings filed on November 26, 2003 are accepted by the examiner.
- 3. The following is an examiner's statement of reasons for allowance:

The cited references describe diagnostic workstations used in a clinical or medical environment that provide hanging protocols that automatically display a sequence of images according to a users preferences, default settings or the context of the images to be displayed. None of the cited references teach or suggest configuring at least one clinical application as part of the hanging protocol and a dynamic display protocol automatically starting a clinical application being part of the hanging protocol as recited in claim 1.

The claimed invention is allowable over the art of record because the art of record does not teach or suggest a method for reading images on a diagnostic workstation comprising the series of interrelated steps as claimed in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dennis M. Butler whose telephone number is 571-272-3663. The examiner can normally be reached M-F from 9:00 to 5:30. The fax phone
